

4 Courses

Software Design as an Element  
of the Software Development  
Lifecycle

Software Design as an  
Abstraction

Software Design Methods and  
Tools

Software Design Threats and  
Mitigations

08/01/2020

**KONDURU SAI SANDILYA**

has successfully completed the online, non-credit Specialization

## Secure Software Design

This specialization is for those with limited workplace experience in software development to obtain the background, perspective and skills to recognize important security aspects of software they are expected to design. Mindsets and attitudes of successful designers--and hackers--are presented as well as project successes and failures

*Albert E. Glock, Jr.*
